

# Fast Foam™

## Instrument Pre-Treatment Foaming System

*Can be wall-mounted at an instrument pre-treatment station or completely mobile on IV stand*

- Adjustable Wet/Dry Foam Quality
- Eliminates Manual Pumping Associated with Trigger Sprayers
- Foam Applicator Wands for Instrument Trays and Instrument Channels
- Improves Coverage for Instruments in the Tray
- Inject Foam into Instrument Channel
- Quiet and Reliable Operation
- Shortens Manual Cleaning Effort

Per ST79 section 7.5.6 (paraphrased) – instruments should be maintained as free of gross soils as possible during the surgical or other healthcare procedure. **Cleaning and decontamination should begin as soon as possible after items have been used**
